

### IP Paging Made Simple

Secure SIP endpoints integrate seamlessly with leading premise & cloud UC platforms.

IP enable existing analog paging infrastructure or deploy high intelligibility IP speakers.

Voice paging, loud ringing, visual alerting, scheduled announcements, notification and emergency communication.

Algo offers SIP compliant endpoints for public address, visual and audible alerting, and door intercom. With 50+ years of telecom expertise and strategic partnerships involving some of the largest communication companies in the world, Algo is a trusted supplier to organizations looking for dependability, proven compatibility, ease of deployment, and best possible user experience.

### IP Voice Paging

IP enable existing paging infrastructure with the Algo 8301 Paging Adapter or deploy high-intelligibility IP speakers. Supporting both SIP and multicast, IP paging solutions are scalable and flexible to meet any enterprise requirement in retail, manufacturing, healthcare, transportation, education, hospitality and more.

### IP Door Intercom

Voice and video intercoms add security for unattended entrances and the convenience of remote access control from any telephone, client or device connected to the SIP enabled UC server. Algo offers several SIP intercoms to choose from including the popular 8028 with ability to utilize existing wiring and provide secure door control.

### IP Alerting & Notification

Visual and audible event notification for loud ringing, bell scheduling, OSHA or ADA compliance, automated announcements, and safety or security communication. Easy integration with SIP enabled cloud or premise UC environments.

### 8180 SIP Audio Alerter

Wall mount SIP compliant & multicast PoE audio device for loud ringing, notification, and voice paging. Multiple SIP extensions can be configured to play a WAV file from memory or auto-answer for live voice paging. Supports both multicast receive and transmit for scalability and integration with IP phones for voice paging. Integrated microphone and G.722 wideband support.
